

## Product news: ,original Circle®' Kitchen program

We would like to introduce the patented ,original Circle®' kitchen program to you:

,original Circle®' is an innovative high-tech compact kitchen concept for commercial and residential use in cities. This 180° revolving functional kitchen design features all the characteristics of a traditional kitchen with an incredibly low demand on overall space, less than 1.8 square metres. This ,lifestyle mini' with high-end features is tailor made for living space at a premium.

The revolving concept ,original Circle®' offers intelligent kitchen comfort compressed into the smallest space but with a storage capacity equivalent to 12 cupboards and a bench top length of approx. 3000 mm, equipped with refrigerator, dishwasher, ceramic hob, oven with microwave, range hood, sink and waste bin as a conventional kitchen.

This kitchen creation can be placed anywhere in the room, also space saving centrally in between walls and in angled corners or recesses and it can be harmoniously integrated with other key living spaces. Equipped with sliding doors the kitchen work area can favourably be hidden in open plan spaces and commercial buildings. Especially for architects and interior designer arise new planning perspectives through the new "room within a room" concept particularly where space is at a premium.

Through open style this kitchen concept is easily accessible and extremely user friendly. Deep cupboards and annoying doors in the way whilst working belong to the past. Appliances and kitchen contents are clearly visible. As this is a rotating kitchen, the complete work area may be reached from a sitting or standing position.

Mobile and without alteration, the circular kitchen can easily be taken with you when relocating.

The ,original Circle®' kitchen is available in different dimensions and models depending on equipment: Model Apartment, Office/Foyer and Motel. Without planning expenditure further special models can be designed from the basic concept with different modules for many target groups.

In the new era of intelligent compact systems, changing demographical profile, modern lifestyle and urban conurbation ,original Circle®' as an innovative functional furniture piece is the perfect solution for CITY LIVING!
